> Upgrade to e2Campus...**TODAY!**

Easy Compare and Upgrade Program ... because safety cannot wait.

e2Campus is the most trusted name in higher education emergency notifications. Over 800 campuses rely on the service to reliably send out messages to keep their communities safe and informed.

The e2Campus Easy Compare and Upgrade Program is a risk-free way to assess whether your current Emergency Notification System meets the requirements of your expanding emergency communications needs. You have 6 months to try e2Campus side-by-side to your current system and decide for yourself! No pressure, no commitments, no risk.

6 months free 100-User Account – Experience the difference

Your e2Campus account is one central interface to send messages to SMS, Email, Voice, Facebook, Twitter, Web Page, Public Address, Digital Signage, Alert Beacons, Desktop Alerts, RSS, and More!

Why should you Upgrade to e2Campus?

The simple answer is: because safety cannot wait.

How do you confirm that you have a complete, reliable ENS solution?

Compare what e2Campus offers with what you are doing today.

Easy Upgrading

We can upload your current users into e2Campus when you are ready to upgrade.

No Obligation

You are by no means obligated to continue to use e2Campus after the 6 month trial period ends.

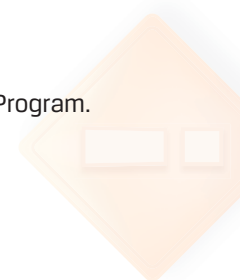

Fully Functional

You can send messages to all of your communications devices from your e2Campus interface.

Get Started Today

Call us at **800-936-3525** or email **info@e2Campus.com** to enroll in the Compare and Upgrade to e2Campus Program.
